

Identify – Isolate – Inform

Clinical Evaluation and Management of Patients Under Investigation (PUIs) for Coronavirus (2019-nCoV)

Information Current as of January 31, 2020. Criteria may change over time.

ISOLATE

- Don/Doff patient-contact PPE: N95 respirator (or equivalent), gloves, gown, and eye shield protection
 - Place surgical mask on patient
- In Hospital Settings:
- Transfer to airborne infection isolation
 - Post “Special Precautions” on door (standard, contact, and airborne precautions + face shield/eye protection)

INFORM

- Hospital Infection Prevention
- Local and State Health Department
- Other authorities per local protocol
