Welcome to Evidence Aid’s July 2024 Newsletter

Next Tuesday, 30 July 2024, is the World Day Against Trafficking in Persons. According to the Global Report on Trafficking in Persons (GLOTIP) by the UN Office on Drugs and Crimes, in 2023, trafficking persons were 9 and 8 in the face of trafficking during 2018. Thus, the theme this year is "Journey on Child-Bound to the Fact of Human Trafficking."

Different forms of child trafficking include forced labour, crime, begging, illegal adoption, sexual abuse and online exploitation. The authors stated in this review that the vulnerability of children is often amplified due to poverty, armed conflicts, lack of parental care, and migration/displacement which results in many minors being accompanied by adults—of which some children may be trafficked in trafficking and exploitation. Consequently, this month’s newsletter we highlight three Evidence Aid summaries that focus on the vulnerability of children and adolescents.
